

ASSA Cassette Lock

Coin- and Card Locks

Performance

ASSA Cassette Lock is a mechanical card lock for cupboards. Hole punched cards or tickets will give access to lock with keys. The lock is of universal type, both cards and tickets (one hole punched) can be used in same lock. On request, when assembling the locks, 10 different located card codes are available.

The cassette lock can be ordered for right-or left handed lockers. A range of cylinders covering different demands of material thickness and security levels, can be used. The cylinder is master keyed.

The lock is made for use in wet areas: Lock case of polycarbonate, cylinder of chromated brass, keys and hook bolt of nickel plated brass.

Function

When inserting the card or the ticket in the cassette, the door can be locked and the key removed. In locked position the card or ticket remains captive in the lock cassette. The insertion of a card or a ticket is then the deposit, which enables the key to be taken away by the customer. After use, when the door is unlocked the key remains captive in the lock, available for next customer.

Using different card codes, enable to keep customers apart in different spaces.
