

Deposit lock with 1-coin insertion Coin and Cardlocks

ASSA ABLOY, the global leader
in door opening solutions

Performance

ASSA E-Lite Single Coin Coinlock is available for use with £1, 1€ and 2€. The lock is provided with an integrated coin return tray. The coinlock is to be equipped with a 5-pin changeable cylinder or a wafer changeable cylinder. For wet environments such as lockers in swimming areas and the like the E-lite Coinlock model should only be used with 5-pin cylinder. The lock is available in both right hand and left hand model.

Function

When the correct coin is inserted the door can be locked and the key removed. When the lock is opened with the key the coin falls into the return tray. When inserting a coin with too small diameter the coin will automatically fall into the return tray, causing no problems with jamming locks for the facility manager. ASSA E-Lite Single Coin Coinlock is designed to always keep the key captive in the lock after use, leaving it available for a new visitor.

Coinlocks

Part number does not include cylinder. The cylinders are ordered separately.

Part no.	Version	RH/LH
290511 111 087	1€	RH
290511 125 087	£1	RH
290511 129 087	2€	RH
290512 111 087	1€	LH
290512 125 087	£1	LH
290512 129 087	2€	LH

Cylinders

The E-Lite coinlock series can be equipped with wafer or 5-pin cylinders. The cylinders are always of the type changeable cylinder which means that the cylinder can be added or removed to the coinlock by simply using the Remove key. The locks are always delivered in master key system. Every cylinder includes 2 user keys according to the cylinder ordering table. Note that the cylinders have to match the corresponding coinlock i.e. RH coinlocks need RH cylinders.

Part number	Type of Cylinder		Type of Key				RH/LH	Cylinder-length
	Wafer	5-Pin	Wafer	Maxi	Mini	Wristband		
363407	X		X				RH/LH	26 mm
391513		X		X			RH	29 mm
391550		X			X		RH	29 mm
391646		X				X	RH	29 mm
391514		X		X			LH	29 mm
391551		X			X		LH	29 mm
391647		X				X	LH	29 mm

Keys

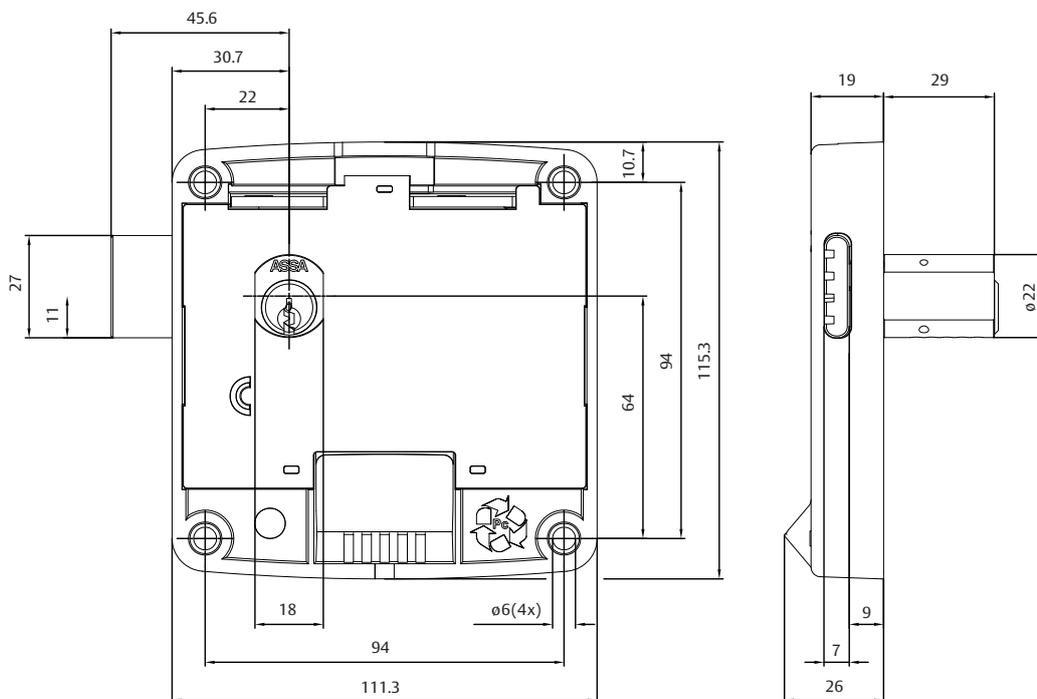

If there is a need for more than the 2 included user keys they can be ordered separately according to the key ordering table. The 5-pin cylinder offers three different key grips: Maxi (26 mm long), Mini (18.5 mm long) and Wristband (to be assembled on a wristband). Remove keys and Master keys are ordered separately. Wafer user keys cannot be ordered separately only together with cylinder.

Part number	Type of Key							RH/LH
	5-Pin				Wafer			
	User Key			Remove	Master	Remove	Master	
Maxi	Mini	Wristband						
491059	X							RH/LH
492168		X						RH/LH
492934			X					RH/LH
492873				X				RH/LH
491058					X			RH/LH
392950						X		RH/LH
362948							X	RH/LH
